Public Notice

USCIS NOTIFIES PUBLIC OF RECENT FEDERAL REGISTER ANNOUNCEMENTS

Notices Point to Future Changes in Premium Processing Service

WASHINGTON, DC – USCIS recently published a notice in the *Federal Register* identifying certain forms for addition to an expanded Premium Processing Service. These forms types include most immigrant worker petitions (Form I-140), selected applications to change or extend nonimmigrant status (Form I-539), and applications to renew employment authorization documents for foreign nationals with pending employment-based applications to adjust status (Form I-765).

Please note that USCIS Service Centers **will not** accept filings for any of these form types under the Premium Processing Service until a formal announcement is made on the USCIS web site (www.uscis.gov) announcing the specific start dates for acceptance of the new form types. Until that date is established and announced, USCIS Service Centers will reject any Premium Processing filings for I-140s, I-539s or I-765s.
